

# Shaker Bed

This Shaker bed is based on one in the Fruitlands Museum in Harvard, Mass. Shaker beds were always low post beds of plain design in cot or twin size. They often had wooden wheels to allow them to be moved for cleaning. They often used slats to support the mattress rather than rope or sacking. The bed shown here is of maple in undersize queen with slats. The original had wood wheels in slots in the feet.

Bed Number : LP-8

Wood Available :

Maple, Cherry,  
Tiger Maple,  
or Walnut

Specifications :
